

# Tax refund information

Even if taxes are perhaps the last thing on your mind during your adventure Down Under, you won't be able to avoid this issue. Everyone who works in Australia or New Zealand must pay taxes on his/her income...even backpackers!

The good news is that you can get your tax back by filling a tax return application. Since this is quite a difficult process and involves lots of effort, you can ask our partner, Taxback.com to do all this work for you. This way you will be certain that your application is filled correctly and that you are getting the maximum legal refund.

As BackpackerPack.de customer, you can subscribe for taxback.com's service for free and without any obligation. The specialists of taxback.com will provide you with a free estimation of your refund and let you know how much tax you can get back. If you wish to use this service, taxback.com will process and file your tax refund application, and they will deduct a small fee for their service. The balance will be transferred to your account, anywhere you are in the world.

Fill in the below form and send it back to:

**taxback@backpackerpack.de**

**Don't forget! You can try the service for free and without any obligations!**
